PTS-2000™

NEMA TS5-TR1 Portable Traffic Signal

JTI

JOHN THOMAS INC

MODEL: Trailer

SIMPLIFYING TEMPORARY TRAFFIC CONTROL

The PTS-2000 is one of the most advanced and easiest-to-use portable traffic signals available. It combines the cutting-edge Galaxy® signal controller technology with quality USA-MADE construction. The PTS-2000 can be used for simple lane closures to complex work zones and complete intersection control.
